Architecture and Power (In Our Time)

Architects, as a rule, served an art of power. Only occasionally—in revolutionary periods—did they demonstrate the counter-power of the arts. Proponents of democracy hoped to reach a balance between power and arts in a communication free of power—as Habermas would call it.

Architecture as a symbol of power 1. ARCHITECTURE AS A SYMBOL OF POWER INTRODUCTION Architecture is and always has been used deliberately and unintentionally to define relationships among individuals, interest groups, cities, and nations. Those relationships, whether adversarial or not, are based on power. Power can be political, economic, social, cultural or any other.

Architecture as a symbol of power - LinkedIn SlideShare
“Power” architecture As wealth and expressive functions increase, a special type of domestic building can be distinguished that may be called power architecture. In almost every civilization the pattern of society gives to a few of its members the power to utilize the resources of the community in the construction of their homes, palaces, villas, gardens, and places of recreation.
