Although largely influenced by the work of Erik Erikson, Levinson sought to create a broader theory that would encompass all aspects of adult development as opposed to just the psychosocial. This theory is characterized by both definitive eras as well as transition phases, whose purpose is to facilitate a smooth transition out of one era and into the next. According to his theory, various developmental

### **Stage-crisis view - Wikipedia**

Levinson's Theory In 1978, Daniel Levinson published a book entitled *The Seasons of a Man's Life* in which he presented a theory of development in adulthood. Levinson's work was based on in-depth interviews with 40 men between the ages of 35-45. He later conducted interviews with women as well (1996).

### **Psychosocial Development | Developmental Psychology**

He values wisdom over one's physical body and socializing over sexualizing which enable the adults to accept limits of their authority and create use of their mind to do away with the losses. He also discusses the emotion aspect as a way of controlling one's emotion. Levinson.
