Most ebook files open on your computer using a program you already have installed, but with your smartphone, you have to have a specific e-reader app installed, which your phone probably doesn't come with by default. You can use an e-reader app on your computer, too, to make reading and organizing your ebooks easy.

There is a Local Group Policies you can set to disable the automatic restarts. This should only be done on Windows Servers assuming a sysadmin is going to RDP into the server on a regular schedule and install updates and restart the server (see Patch Tuesday). Press Windows Key+R to open the run prompt. Type "gpedit.msc" and
